

DVD to Zune Conversion Guide from <http://www.dvdtozune.com>

How to convert DVD to Zune, video files to Zune

Author: Amanda Smith (dvdtozune.com)

The tutorials describe the way about ripping DVD to Zune video (MP4, MPEG-4, H.264) and Zune audio (MP3), and converting all popular movie files to Zune with only one program. The Zune converter software is easy to use, works flawlessly. Super fast conversion speed with high quality plus chapter/segment ripping modes give you everything you need to put DVD/video on Zune.

Before convert DVD to Zune or convert AVI, WMV, MPEG, RM, Divx, MOV, XviD, RMVB, DVR-MS, ASF, MPG to Zune, let's check the format limitations which the Zune plays.

* Zune Video: unprotected MP4 (MPEG-4), H.264, WMV up to 320x240 pixel, 1.5Mbps video bitrate, 30fps, 192Kbps audio, 44.1kHz. * Zune Audio: MP3, WMA, AAC up to 320Kbps, 48kHz sample rate.

Part1: How to convert DVD to Zune.

Part2: How to convert video files to Zune.

(1) Convert DVD to Zune video & rip DVD to Zune audio

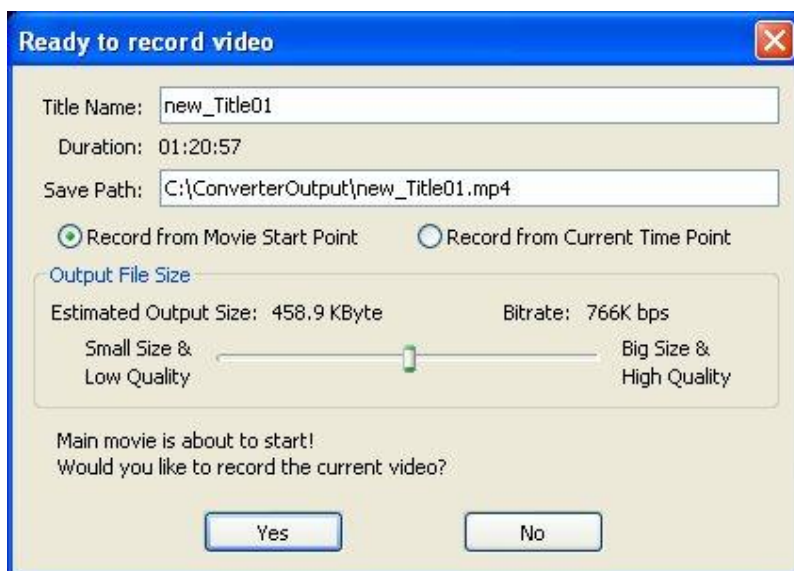

1. Free download DVD to Zune Converter + Zune Video Converter Suite (latest version) from <http://www.dvdtozune.com/>.

2. Insert the DVD you'd like to convert to the DVD drive.
3. Click 'File' menu and 'Open DVD', or directly hit 'Open DVD' button to load the DVD.
4. Click around in the DVD's menu to set up DVD playback as you like, then begin to play the movie through the software.

5. The following window will pop up. Here, you can rename 'Title Name', set 'Save Path' and output quality, then click 'Yes' button to start ripping DVD to Zune MP4 video from the point that the movie starts. That is all. Just so easy!

If you'd like to record from certain time point, or want to change some parameters like 'output format', 'video bitrate', 'frame rate', 'audio bitrate', please click 'No' button to close the window.

6. Optional parameters settings

* Select subtitles and languages

Click 'Subtitle' or 'Audio Track' in the 'Setting' menu, choose the related value you like.

* Set output formats

Choose the target file format from 'Profile'. The software supports converting DVD to Zune MP4, Zune H.264, Zune audio MP3 and Zune TV size.

* Set the start time to convert

Use the video playback controls to queue up the point at which you want to start ripping. Or click 'Setting -> Go to' and jump to previous/next chapter.

* More parameters

Click 'Setting -> Output video settings', here you can choose different profile, video/audio bitrate, video size, disable video/audio, aspect ratio, frame/sample rate, etc.

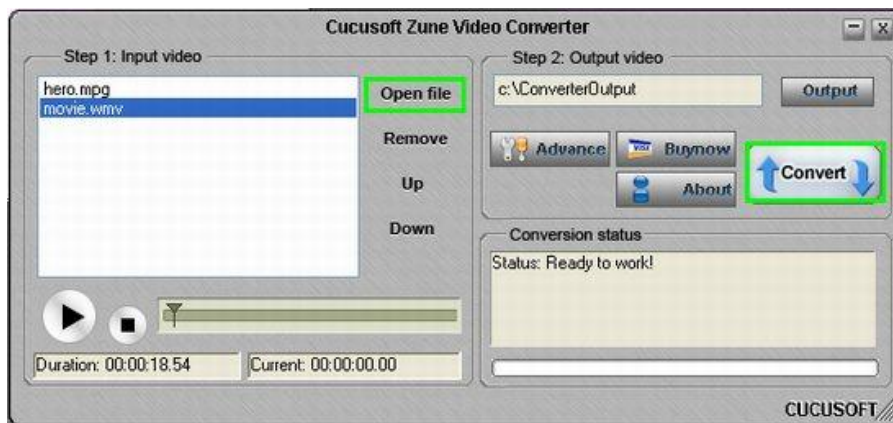

7. Hit 'Convert' button, choose the recording time point and quality, then click 'Yes' to begin to convert DVD to Zune video or audio quickly.

8. After ripping, transfer the converted files to Zune software, and then sync to your Zune player.

(2) Convert Zune video MP4 and audio MP3, AVI to Zune, MPEG to Zune, WMV to Zune, MOV to Zune, DivX to Zune, Xvid to Zune, DVR-MS to Zune, RM to Zune, RMVB to Zune, ASF to Zune, AVS to Zune, MPG to Zune step by step

1. Free download Zune Video Converter + DVD to Zune Suite (latest version) from <http://www.dvdtorzune.com>.
2. Click 'Open file' button to load the video file(s) you'd like to convert. The Zune converter software supports batch conversion mode.

3. The default output format is Zune MP4 video. If you'd like to change this, click "Advance" button, set the output format to Zune video (Zune MP4, Zune H.264, Zune TV) or Zune audio (MP3). Here, you can also set video size, frame rate and more.

4. Hit 'Convert' button to start converting video to Zune.

5. Transfer the converted video or audio files to Zune software and put them on Zune player.

Just so easy to convert DVD to Zune! Enjoy!
